# SURVIVAIR HANDYPAK ASSEMBLIES

## Quick and easy respirator kits.

Survivair HandyPaks combine superior quality respirators with the most commonly used chemical cartridges and filters providing you with a quick and easy respirator kit for immediate use. Handypacks are packaged in a re-sealable bag or clamshell. No need to purchase separate boxes of cartridges, filters or retainers.

The Survivair HandyPaks are available in the Survivair 3000 half mask and Survivair Opti-Fit™ full face silicone mask in sizes small, medium and large. Cartridge and filter combinations include: N95, P100, Organic Vapor, Organic Vapor/N95, Organic Vapor/Acid Gas, Organic Vapor/Acid Gas/N95, Organic Vapor/Acid Gas/P100, Organic Vapor/P100, Ammonia/Methylamine, Multi-Contaminant/N95, and Multi-Contaminant/P100. Additional S-Series replacement cartridges and filters are available.

# SURVIVAIR HANDYPAK ASSEMBLIES

## Survivair 3000 Half Mask HandyPak

### Comfort and Fit

With its comfortable silicone facepiece, the Survivair 3000 half mask respirator is durable, comfortable and offers a large, pliable sealing area, providing excellent fit. An angled, self adjusting nose bridge conforms to a variety of nose shapes and sizes comfortably and accommodates safety or prescription eyewear. An improved yoke design gives a snug, secure fit, and reduces faceplate slippage, yet permits easy donning and doffing.

Typical applications include open air spraying of paints, pesticides, and other potentially harmful substances where eye protection is not necessarily required.

## Survivair Opti-Fit™ Full Facepiece HandyPak

### Clearly Superior Optics and Lens

With an optically correct lens that is free of striations, bubbles, waves, and defects that could impair vision, the Survivair Opti-Fit is ideal for all situations from precise cutting and grinding to inspecting machinery.

### Air on the Side of Caution

NIOSH certified for use with a variety of cartridges and filters, the Survivair Opti-Fit also exceeds ANSI Z87.1+ standards protecting your face with a high impact and combustion resistant lens.
