Översikt

Viktigaste egenskaperna

The easy to fit lightweight flexible sit harness is suitable for Mountain Rescue technicians where the harness is worn for

short durations only.

Front ventral anchorage loop for rescue and rope access.

The belay connection link distributes the loads to the larger muscle groups to minimise discomfort and suspension trauma and maximise productivity.

Padded belt and leg straps provide excellent support and comfort during suspension.

Can be used in conjunction with the ITC Chest harness for front fall arrest anchorage point.

Rekommenderade branscher/rekommenderat användningsområde

- Annat

Risker

- Fall från höga höjder
