ArMEX 961

ArMEX 961 is a sleeve made of breathable para-aramid, which is available in two different lengths: 36 cm and 42 cm. Perfect for use in combination with any cut or heat protective glove, when forearm protection is required. A thumb hole ensures a good fit and does not interfere with work. It is flexible so it can be worn by any size hand. The sleeves are washable, which extends the service life.

Översikt

Viktigaste egenskaperna

The ArMEX line features medium-weight sleeves made of para-aramid.

COMFORT

The knitting technique gives the sleeves perfect support, limits the penetration of dirt and offers a good touch. The thumbhole provides added support.

RESISTANCE

The para-aramid fibre offers good cut resistance and outstanding protection against thermal hazards in a dry environment. The dual thickness improves the cuff's mechanical and thermal performance.
