ArMEX

Knitted para-aramid sleeves. Forearm protection.

Product Numbers & Ordering Information

	Product Numbers	Details
	961	<p>ArMEX 961</p> <p>ArMEX 961 is a sleeve made of breathable para-aramid, which is available in two different lengths: 36 cm and 42 cm. Perfect for use in combination with any cut or heat protective glove, when forearm protection is required. A thumb hole ensures a good fit and does not interfere with work. It is flexible so it can be worn by any size hand. The sleeves are washable, which extends the service life.</p>

Overview

Key Features

The ArMEX line features medium-weight sleeves made of para-aramid.

COMFORT

The knitting technique gives the sleeves perfect support, limits the penetration of dirt and offers a good touch. The thumbhole provides added support.

RESISTANCE

The para-aramid fibre offers good cut resistance and outstanding protection against thermal hazards in a dry environment. The dual thickness improves the cuff's mechanical and thermal performance.

Recommended Industries/Use

- Steel and Metals

Hazards
