It is extremely flexible and pleasant to wear. The special shrink-roughened surface structure ensures a secure grip and good resistance to puncturing, cutting and abrasion, allowing the wearer to work with sharp-edged materials and components.</p>

Overview

Key Features

The Grip-Tex line features interlock cotton liners with latex coating.

COMFORT

The tight knit gives the glove perfect support, limits the penetration of dirt and offers a good touch. The cotton thread absorbs perspiration for added comfort. Non pilling, the polyamide is suitable for precision work.

RESISTANCE

The crepe latex coating provides resistance to abrasion and perforation as well as an excellent grip.
