Warranty Information

Honeywell warrants that its Honeywell Protective Gloves are free from defects in material and workmanship. This limited warranty does not cover any product or component found to have been altered, misused, abused, tampered with or improperly maintained or to have deteriorated due to aging of any component made of rubber or any other elastomer. The limited warranty does not cover any damage, loss or expense due to damage caused by accident, abuse, improper maintenance, use or misuse of the product.

Specifications

Materials

- Stainless steel chainmail (4mm)

Training & Proper Use

Does not contain any allergenic substances

To ensure optimum protection, Honeywell gloves should be kept in perfect condition for use.

Cleaning: At least once a day Chainex gloves should be scrubbed vigorously at least once a day with hot soapy water (50°C) or in a mixture of hot water (50°C) and detergent.

Rinsing at 82°C minimum. Desinfection with an approved product.

They can also be cleaned in a washing machine.

Do not clean chainmail protective gloves and metal chainmail protective gloves by knocking them against a hard surface.

Any glove showing signs of abnormal wear or missing chainmail must be replaced immediately by a glove in good condition.

Only the manufacturer is authorised to repair defective gloves or to declare a glove beyond repair.
