FlamePro2 SPLIT JACKET

Mao collar in 100% flame-retardant cotton with Velcro® fastening. Press-stud fastening with flap. Upper front and complete back of the jacket in 100% flame-retardant cotton: flexible, light weight and reflects the heat. Press-stud wrist adjustment. Jacket in Grain leather. Size: M to XXL. EN ISO 1161:2007 (Class 2).

4104933

FlamePro2 GRAIN JACKET

Mao collar in 100% flame-retardant cotton with Velcro® fastening. Press-stud fastening with flap. Upper front and complete back of the jacket in 100% flame-retardant cotton: flexible, lightweight and reflects the heat. Press-stud wrist adjustment. Jacket in Grain leather. Size: M to XXL. EN ISO 1161:2007 (Class 2).

4104934

FlamePro2 PANTS

Front of pants in split leather. Back in 100% flame-retardant cotton. Belt loops in Blue split leather. Waist lined in 100% flame-retardant cotton. Press-stud fastening. Straight leg. Front of pants in split leather. Back in 100% flame-retardant cotton. Size: M to XXL. EN ISO 1161:2007 (Class 2).

4101180

FlamePro2 APRON 90

Two-tone apron in grey and blue split leather (heat reflective). Comfortable and resistant: apron adjustable using straps around the neck and waist, in 100% flame-retardant cotton, with plastic buckle fastening. length:90cm, one size. EN ISO 11611: 2007 (Class 2).

4100480

FlamePro2 APRON 110

Two-tone apron in grey and blue split leather (heat reflective). Comfortable and resistant: apron adjustable using straps around the neck and waist, in 100% flame-retardant cotton, with plastic buckle fastening. lengths:110cm, one size. EN ISO 11611:2007 (Class 2).

4302726

FlamePro2 SLEEVES

Split leather sleeves protect the forearm. Elastic fastening at both ends give support and an easy fit with gloves. Length: 40cm, one size. EN ISO 11611:2007 (Class 2). Packed per pair.

4305221

FlamePro2 GAITERS

Spit leather gaiters with double Velcro® lateral fastening and resistant support. Covers the entire shoe. Double fastening with understrap and plastic buckle loop. One size. EN ISO 11611:2007 (Class 2). Packed per pair.

Översikt

Viktigaste egenskaperna

Protection against huge projections of molten metal.

Rekommenderade branscher/rekommenderat användningsområde

- Transport
- Svetsning
- Vindkraft

Risker

- Värme
- Svetslåga

Föreskrifter

- EN ISO 11611:2007 (Class 2) - Protective clothing used for welding and allied processes

Garantiinformation

Attention shall be drawn to the hazards of improper use:

The level of protection against flame will be reduced if the protective clothing is contaminated with flammable materials. An increase in the oxygen content of the air will reduce considerably the protection of the protective clothing against flame. Attention should be taken when welding in confined spaces, e.g. if it is possible that the atmosphere may become enriched with oxygen.

The electrical insulation provided by clothing will be reduced when the clothing is wet, dirty or soaked with sweat. For operational reasons not all welding voltage carrying parts of arc welding installations can be protected against direct contact. The garment is only intended to protect against brief inadvertent contact with live parts of an arc welding circuit, and that additional electrical insulation layers will be required where there is an increased risk of electric shock.

Specifikationer

Composition

- Composition according to the product: split leather, grain leather, 100% cotton fabric (360 g/m2)

Performances

- EN ISO 11611:2007 (A1- Class 2): Protective clothing used for welding and related technical operations

Life cycle

- Mechanical wash not allowed. DO NOT use bleach. DO NOT tumble dry. Do not iron. Dry NOT dry clean

Storage

- Keep equipment in the original packaging in a cool and dry place, not dusty, far from heat sources and far from direct light. Carefully keep the instructions below that appear on the label of the equipment for maintenance purposes.
