	5500WKITM	Honeywell Welders kit Clamshell Packaging Medium Size Mask with P2 Pancake filters
	5500WKITL	Honeywell Welders kit Clamshell Packaging Large Size Mask with P2 Pancake filters

Overview

Key Features

The kit comes complete with half mask and P2 rated pancake filters. Pancake filters are flexible and easily fit underneath a welding helmet.

Handy Kits make filter selection easy!

- Easy filter selection
- Latex free half mask means no latex allergens
- Low dead air space means less exhaled breath is re-breathed which encourages worker productivity
- Strategic placement of exhalation valve on mask allows more breath to be exhaled out of the mask faster leaving workers feeling cooler and more comfortable
- Variable thickness in sealing area of masks means the nose area is flexible enough to conform to the bridge, it provides superior comfort without sacrificing fit of the nose, but not too thin to collapse.

Recommended Industries/Use
