Front anchorage point & seat strap, side D-rings for positioning lanyard, size M/L. New front anchorage point with rope cover.

### Overview

**Reference Number**

1016682

**Product Type**

Fall Protection

**Range**

Belts

**Brand**

Miller by Honeywell

**Industry**

- Green Spaces

**Product Use**

The new Dragonfly positioning belt has especially been designed to match the requirements of the tree pruning professionals. Combining technical features (side and front anchorage points) with comfort of use (anti-sweating back pad and ergonomic seat strap), it is particularly adapted to operations where the tree pruner is in suspension.

### Features & Benefits

**Feature**

The new lightweight and ergonomic Dragonfly positioning belt has been especially designed to meet the requirements of the tree pruning professionals. Combining technical features (side and front anchorage points) with comfort of use (anti-sweating back pad and ergonomic seat strap), it is particularly adapted to operations where the tree pruner is in suspension. Seat straps, leg straps and different lengths of front anchorage straps are also available and interchangeable.

**Benefit**

**Excellent Freedom of Movement** The lightweight materials and ergonomic design enhance manoeuvrability and are particularly adapted to operations where the tree-pruner is continually moving around the tree. **Greater Comfort** A wider, more robust padded belt and padded leg straps ensure good support and a more comfortable fit. The rigid seat strap option increases comfort during prolonged work in suspension. **Greater Versatility** The leg straps, seat strap and front anchorage parts are all interchangeable on the Dragonfly tree-pruning belt, enabling the climber to easily adapt the belt to a particular work site.
