Features & Benefits

Feature

White Dyneema® Diamond/Lycra® knitted glove
Black polyurethane coating on palm and tips of fingers
Red Elastic wrist

Benefit

COMFORT

The knitting technique helps to obtain a glove that conforms snugly to the hand, with good dexterity. The glove offers maximum comfort and added sturdiness. The cool Dyneema® diamond touch gives an added sensation of comfort.

The tight knit (gauge 13) gives the glove perfect support, limits the penetration of dirt and offers a good touch. The glove's ventilated back optimises its breathability.

RESISTANCE

The Dyneema® diamond/lycra® thread provides outstanding properties against cuts. The polyurethane coating at the palm and fingertips provides outstanding abrasion resistance. Caution! Do not expose this glove to the heat.

HYGIENE

Its white colour enhances the glove's hygiene and cleanliness. Its black coating enables work in a slightly soiled environment.
