

# Miller® Falcon™ Fall Arrestors Webbing

## Product description

Nearly indestructible, the high impact-resistant nylon housing withstands the harsh rigors of the toughest applications. The lightest, most rugged line of composite fall arrestors are designed with smooth, round edges to increase durability.

## FEATURES

- Corrosion-resistant stainless steel and aluminium internal components extend service life and reduce replacement costs.
- Lightest composite unit on the market – easy to handle and transport to/from jobsites.
- Unique side payout design reduces wear on the entry guide bushing for smooth operation with less drag.
- Smooth, quiet operation; engineered spring retraction tension designed not to pull or drag on a worker to improve productivity and reduce fatigue.
- Dual swivels (unit top and snap hook) included to minimise lifeline from twisting during use.
- New and improved load indicator on the snap hook identifies when the unit needs to be removed from service.
- No annual factory recertification required – lowers cost of ownership and increases productivity.
- Return to manufacturer after five years for recertification and annually thereafter.
