Miller QuickPick™ Rescue Kits

Simplified Rescue Systems

- *Out-of-the bag solution for prompt rescue – no assembly required*
- *Quickly raise or lower a fallen worker to safety – avoid suspension trauma*
- *Professional rescue solution – enhances worker safety and corporate rescue plan*

MILLER®

by Honeywell

Miller QuickPick™ Rescue Kits

Miller QuickPick™ Rescue Kits deliver peace of mind during unexpected, stressful peer-rescue situations. The rescuer can remotely attach the system to the suspended worker while remaining securely anchored on the walking/working surface. All rescue components are contained in one easy-to-store kit with no assembly necessary – only requiring an overhead anchorage.

Premium and Standard Kit Configurations Provide a Choice of Two Options

Premium QuickPick Rescue Kit

Best choice for users whose job does not normally include rescue

Backup Braking System
included in Premium Kit

The premium kit includes a Backup Braking System that acts as a secondary fall protection device. In case of accidental release of rope by the rescuer, a foolproof backup will quickly stop the system.

- Highly efficient hauling system with a 5:1 lifting ratio, making heavier loads easier to lift
- Complies with OSHA, ANSI A10.32 and the stringent ANSI Z359.4 Safety Requirements for Assisted Rescue and Self Rescue Systems, Subsystems and Components. (There is no applicable CSA standard.)
- Offers a 400 lb weight capacity

Standard QuickPick Rescue Kit

Designed for users more experienced with rescue

The standard kit provides an economical kit configuration for conducting rescues with workers who are confident in managing rescue systems.

- Efficient hauling system with a 4:1 lifting ratio, making heavier loads easier to lift
- Complies with OSHA and ANSI A10.32 (There is no applicable CSA standard.)
- Offers a 310 lb weight capacity

Kit Contents

- 1** Backup braking system
Backup braking system only included with the premium kit.
- 2** Color-coded, high-strength aluminum pulleys for easy orientation
- 3** 7/16-in. (11mm) semi-static kernmantle rope
