	EN388		not tested	
Tear Resistance:	EN388		not tested	
Puncture Resistance:	EN388		not tested	

CARE INSTRUCTIONS

Neoprene gloves should be kept in a closed container, away from sunlight, artificial light, humidity and stored at temperatures between 40° F and 95° F. Proper storage and maintenance should preserve products for the full shelf life of approximately 2 years.

WARNINGS

* Gloves are cut-resistant, not cut proof. Extreme caution should be used around moving machinery.

** Laundering gloves that have been in contact with toxic or corrosive chemicals may result in a chemical reaction, including fumes that could cause personal injury, serious illness or death.

This information is provided as a guideline for product use. The end user is solely responsible for determining the suitability of a particular glove for a specific application and the length of time in which such glove may be safely used.
