	EN388	not tested	≥ cycles
Cut Resistance:	ASTM F1790-97	Level 5	≥ 3,500 grams
	EN388	not tested	
Tear Resistance:	EN388	not tested	
Puncture Resistance:	EN388	not tested	

LAUNDERING INSTRUCTIONS

Water wash at temperature between 104°-140°F (40°-50°C) with mild detergents. Bleach can be used by diluting solution of 5.25% sodium hydrochloride diluted at 1-10 parts water. Drying temperature should not exceed 158°F (70°C).

Do not use dry cleaning solvents on the product. Using dry-cleaning solvents may result in deterioration of the product's properties which may lead to serious injury. Do not launder gloves that have been in contact with toxic chemicals

WARNINGS

* Gloves are cut-resistant, not cut proof. Extreme caution should be used around moving machinery.

** Laundering gloves that have been in contact with toxic or corrosive chemicals may result in a chemical reaction, including fumes that could cause personal injury, serious illness or death.

This information is provided as a guideline for product use. The end user is solely responsible for determining the suitability of a particular glove for a specific application and the length of time in which such glove may be safely used.
