

5500 Series Clamshell Welder's Kit

Product description

The Honeywell 5500 series half mask welders kit is the economical choice for welders requiring respiratory protection from welding fumes. The kit comes complete with half mask and P2 rated Pancake filters which are flexible and easily fit underneath a welding helmet. Handy Kits make filter selection easy!

FEATURES

- Kits available in Small, Medium or Large
- No chance of latex allergens economy masks
- Only 9 replacement parts – and all parts are replaceable meaning they are quick and easy to strip down and clean
- Latex free means No latex allergens & are safe for your workers with allergies
- Low "dead air" space means Less exhaled breath is re-breathed which encourages Increased worker productivity
- Strategic placement of exhalation valve allows more breath to be exhaled out of the mask faster leaving workers feeling cooler & more comfortable
- Variable thickness in sealing area means the nose area is flexible enough to conform to the bridge, it provides Superior comfort without sacrificing fit of the nose, but not too thin to collapse
- Built up chin area supports the mask, maintains fit even while the wearer is talking

APPLICATIONS

- Suits various welding applications requiring respiratory protection against fume.
