

## Survivair XL-Series\* Self-Contained Breathing Apparatus (SCBA) and Survivair XL-Series Pressure Demand Supplied Air Respirator (PD-SAR) NIOSH Certification Rescission

### Respiratory Advisory: NIOSH Certification Rescission

In addition to the XL-Series SCBA and XL-Series PD-SAR manufacturing discontinuation (1995) and replacement parts discontinuation, Honeywell is rescinding the NIOSH certification on all XL-Series SCBAs and XL-Series PD-SARs. This will be effective December 31, 2015.

When the NIOSH certification is rescinded, all XL-Series SCBAs and XL-Series PD-SARs used in the marketplace will no longer be NIOSH-certified and should no longer be used.

### This rescission affects the following NIOSH approvals:

XL-Series SCBA	XL-Series PD-SAR with Escape	XL-Series PD-SAR
TC-13F-44	TC-13F-53	TC-19C-65
TC-13F-45	TC-13F-54	TC-19C-66
TC-13F-82	TC-13F-240	TC-19C-67
TC-13F-105	TC-13F-282	TC-19C-68

Honeywell Respiratory Protection is committed to providing the most up-to-date SCBAs and PD-SARs in the market. There are SCBA and SAR programs/promotions that can be used to transfer your customers to a current Honeywell SCBA or PD-SAR platform.

Please advise any Survivair XL-Series SCBA and XL-Series PD-SAR users of this news and begin their transition to a current Honeywell SCBA or PD-SAR that is best suited for today's needs.

### Contact Information

For questions or more information, please contact your local Honeywell representative or call the Honeywell respiratory team directly at **800-821-7236**.

### \*XL-Series SCBAs include:

S-30 (Model "E"), XL-30, Mark 1, and XL-60 SCBAs
