

P2 Premium Cup-Shape Respirator Valved

Product description

A fully featured premium cup shape P2 respirator, with exhalation valve, suggested for protection against dust, mist & fumes/particulate aerosols free of oil.

FEATURES

- Approved for 10 times the exposure standard of dusts produced by grinding, drilling, certain applications of brazing and welding etc.
- Shaped for better fit when worn in combination with eyewear.
- Low breathing resistance encourages longer wear time by improving the wearer's comfort.
- Humidity resistant and hypoallergenic filter media for maximum respirator service life.
- Durable latex-free suspension straps to eliminate pre-stretching.
- Staples do not penetrate filter medium.
- Willtech™ boomerang nose seal absorbs perspiration providing increased comfort.
- Flame retardant outer shell ensures greater safety.
- No restriction of vision or communication.
- Exhalation valve increases wearer comfort in hot or humid workplaces.
- Green nose bridge allows for easy identification of P2 rating

APPLICATIONS

- Agriculture, Chemical, Construction, Fire Protection, Food services, forestry, manufacturing, mining, municipal services, oil & gas, pharmaceutical, steel & metal, utilities

HAZARDS

- Airborne particulates—dust/mist/fume
